# Computer Science Immersion Program (C-SIP)

9 Saturday Afternoons: March 9th to May 4th
(12 - 3pm OR 3 - 6pm PST)   Location: Zoom Virtual Classroom

- **Learn More About Your Opportunity to Make a Difference in the World Through an Education in Computer Science & Career in Technology**
- **Hear Presentations From Working Professionals About Their Careers & Lives in Tech**
- **Explore Leadership Skills, College Admissions & Career Pathways in Program Workshops**
- **Mission Driven, Non-Profit Program That Is Free for Students Who Meet the Family Income Guidelines for the Free/Reduced Lunch Program and a Program Fee for Other Students**

Are you interested in exploring your opportunities in computer science during college and in a career? - C-SIP is a way to learn from those inside the world of technology!

Our world is being rapidly transformed by the impact of technology and the effect it has on our society. Individuals in the computer science field work every day to develop new products, software and digital narratives that are actively reshaping every aspect of our world. Over the course of 9 Saturday afternoons in Spring 2024, high school students will learn about their future opportunities in the computer science field as it relates to education, a career and making a positive impact on our changing world. Students will hear career presentations from working professionals engaged in computer science jobs and career fields such as web design, software development, user design as well as the business operations of technology companies. Through workshops and discussions, student will learn more about how their unique personal and academic interests can relate to a possible career future in computer science.

❖ Engage during talks from 10+ working professionals such as a web designer, UX engineer, product manager and technical artist about their computer science/ technology related careers
❖ Prepare for college admissions as well as career options & pathways in our program facilitated workshops
❖ Work collaboratively on a small team project where we explore website design, user experience and basic software programs
❖ Learn more about your potential career opportunities to make a positive impact on the world around you using technology

Interested? – More Info and the Application are at www.impactinternships.org/csip
Application Deadline: Sunday, February 25th, 2024
