

Impact Internships

Health Science Immersion Program (HSIP)

9 Saturday Afternoons:
June 8th to August 3rd

(11 – 2PM OR 2 – 5PM PST)

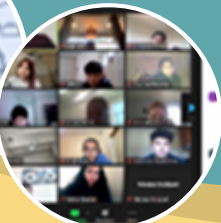

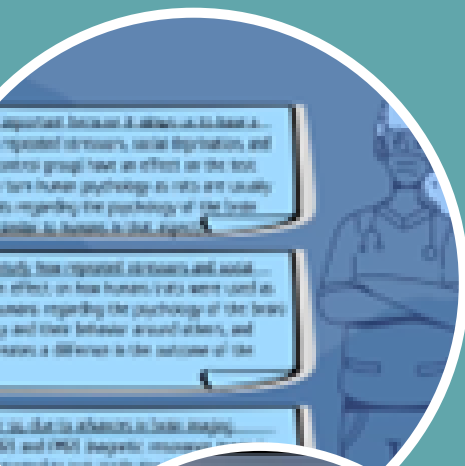

LOCATION: ZOOM VIRTUAL CLASSROOM

Are you interested in exploring the health sciences, medical care and science research? HSIP is an accessible, enriching and fun way to learn more this Summer!

Interested?

More Info & the Application are at www.impactinternships.org/hsip

Application Deadline:
Sunday, May 19th

From science research in a laboratory to medical care in a hospital, there are many health science professionals who are transforming society's health outcomes. In Summer 2024, we will give high school students an introduction to the academic, research and professional components of the health sciences field. A key focus of HSIP will be helping students consider their future college experience as well as career opportunities through hearing from speakers, engaging in workshops and taking part in a group research article project. Since 2019 over 1,195 high school students have been introduced to the health sciences field by taking part in HSIP. All current high school students (grades 9 -12) with an interest in the health sciences are encouraged to apply!

- **Engage in lectures from speakers including Science Professors/ PhD Graduate Students from institutions including UC San Francisco, UCLA, Columbia University & Cal State LA about their research as well as health professionals such as a dentist, medical resident physician, respiratory therapist, medical communications manager & pharmacist about their careers**
- **Prepare for college admissions in our facilitator led workshops and engage in our career options and pathways workshops**
- **Work collaboratively on a small group research project to build science inquiry and public communication skills**
- **Be Part of a Community That Values Learning and Mentorship!**
