WINTER 2027

Engineering Immersion Program (EIP)

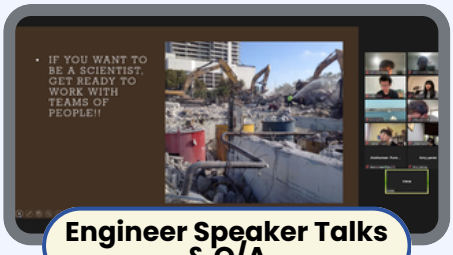

Impact Internships

Are you interested in exploring your future opportunities in engineering?

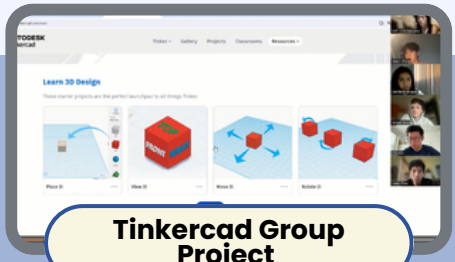

Through engineer speaker talks, program workshops, and a group project, EIP is a chance to explore your future in engineering this winter!

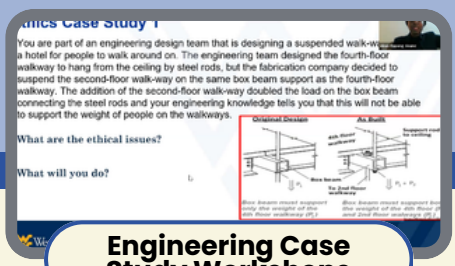

Engineering Career Workshops

Engineer Speaker Talks & Q/A

Tinkercad Group Project

Engineering Case Study Workshops

Engineer Career Pathways Exploration

9 SATURDAY AFTERNOONS:
JANUARY 9TH – MARCH 6TH

11 AM – 2 PM PST OR **2 PM – 5 PM PST**

LOCATION: ONLINE VIA ZOOM

Over 9 Saturdays, high school students will explore engineering careers & education pathways by:

- Hearing from engineers & industry professionals about their work and career journeys
- Considering fields like bioengineering, chemical, civil & computer engineering
- Learning how math, physics, chemistry, and computer science come together to solve engineering problems
- Collaborating on a group project exploring engineering disasters, design flaws, and engineering ethics
- Building teamwork, leadership, communication & problem-solving skills for a future in engineering & STEM

APPLICATION DEADLINE:
Dec. 19th, 2026
